

Assessment of UK Drainage Network's Drain Repair procedures - schedule

independent certification of your products & services

1. Scope

To assess procedures used by UK Drainage Network for the investigation and repair of drains.

The UK Drainage Network is a Nationwide Specialist Drainage Solution Provider comprising 4 Drainage Specialists who carry out investigation and repair work on behalf of the Network.

The scope of the assessment is limited to compliance of UK Drainage Network's procedures with the requirements of The Drain Repair Book⁽¹⁾.

2. Assessment schedule

2.1 Review procedures for compliance with The Drain Repair Book.

Note: Some activities are carried out centrally at UK DN and others within the 4 Drainage Specialists.

2.2 Select and review recent projects in each of the 4 Founding Members to demonstrate the practical application of the procedures.

3. Review of procedures

All procedures included in The Drain Repair Book are to be reviewed, including but not limited to:

- site investigation (including data gathering, cleaning, inspection);
- scoping repair work (including condition grading, the need for repair and likely causes)

- selecting repair technique;
- specification of site work;
- specification of materials.

4. Reference documents

1. The Drain Repair Book. WRc plc, 2003 (with Amendment No. 1, Dec 2004).

Note: Only those methods and materials that are assessed and shown to conform to the Drain Repair Book can subsequently be used under this approval.
